

The International Yacht Awards 2011

Shortlisted Entries

The 2011 International Yacht Awards has seen some of the most interesting design projects short listed from throughout the world. This is your chance to take a look at the short list, in subsequent issues we will be featuring the winners in more detail.

'Arcadia 85'
– Submitted by Arcadia Yachts in the Power Yachts 25-40m Category

The Arcadia design encompasses a strong ecological approach and care for environmental protection. It has self power production by photovoltaic panels, advanced aesthetic sense, and a new free-spaces concept. Arcadia is entirely projected on a human scale for a long stay on board, enjoying day light and a 360° panoramic view as no other boat of same size at present day can provide.

'Hedonist'
– Submitted by Art of Kinetik in the Power Yachts 18-24m Category

Hedonist, a mahogany motor yacht with progressive design and unique loft-like interior layout. The overall concept, the interior especially, was based on the idea of a super-yacht in a small package. It is clean, un-compromised, and above all unique. Yet, at the same time it completely stays in function with the yacht's usability and maritime performance. The shape is elegant and elongated, whilst keeping the lines contemporary.
