

PRODUCT GUIDE 2012
ARTØFKINETIK

HEDONIST OPEN

HEDONIST **OPEN**

Hedonist turned heads with its unrivalled fusion of art and technology. Our convertible model will open your mind to a new definition of luxury at sea. With its daringly sleek profile and mono-frame stainless steel windshield it is a unique statement in yachting design. The sleek, all-weather canopy unfurls effortlessly to reveal subtle new cockpit shades - retro harmonising with futuristic - allowing you to savour the sights and sounds of every voyage. Inside, elegant white textures and designer accessories feel even more like home. Outside, the new mahogany colour and enhanced detailing feels like nothing you have seen before.

UNRIVALLED POWER

The finest craft demand the finest engines. To generate the smooth, exhilarating power to match Art of Kinetik's pulse-racing looks, we engaged diesel specialists Man®.

MINIATURISED TENDER

Affectionately known as "Mini Me", this miniaturised three-man tender is identical in design to the mothership into which it docks with the help of a mechanical arm. A stylish modern take on the classic wooden launch, its old-world looks belie cutting-edge capability. The cold-moulded wood reinforced with carbon and Kevlaris powered by jets that can reach impressive speeds.

IMPECCABLE DETAIL

They say the devil is in the detail. With Art of Kinetik, it is the delight. As with our pilot's chair and steering wheel, we sought to create a unique experience at every turn. Our artists and designers worked closely with the engineers to produce dozens of tailored details such as the fuel tank caps, cleats, chock and retractable deck ladders.

THE ACHEULIAN HAND AXE

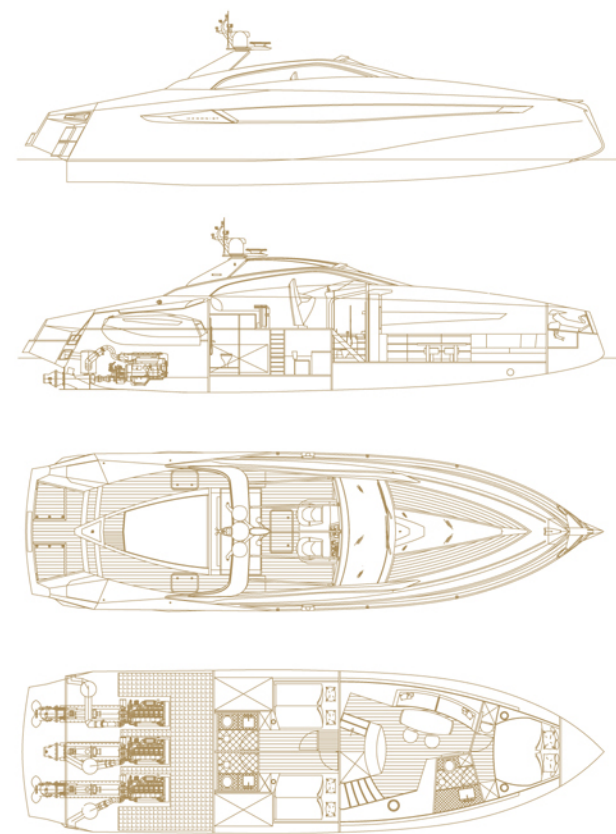

Discovered in the Olduvai Gorge in Kenya, is over a million and a half years old. In a world where tools might have been the most important things made, their qualities were sometimes brought to a perfection far beyond the needs of practicality. Craft, symmetry and elegance speak of pride in creation, pleasure in contemplation, prestige in possession.

TECHNICAL SPECIFICATIONS

HEDONIST OPEN

Length Overall [m\ft]	19\62
Beam Overall [m\ft]	5,3\17
Draft [m\ft]	0,95\3
Displacement full load [kg\lb]	32500\71650
Accommodation	2+3
Max persons on board	12
Hull type	Planning Hull
Certification – Notified body	RINA S.p.A
Navigation category	(2003/44/EC) CE category “B”
Engines	3 x 800 hp MAN R6-800
Propulsion	3 x Rolls Royce Kamewaterjets
Fuel tank [l\gal]	3500\925
Fresh water tank [l\gal]	650\172
Top speed at full load [kn]	42
Cruising speed [kn]	33
Fuel consumption at top speed [l/h\gph]	430\113
Fuel consumption at cruising speed [l/h\gph]	330\87
Range at top speed [nm]	320
Range at cruising speed [nm]	370
Tender boat	AOK custom made PWC
Control and monitoring system	Böning Automationstechnologie

THE SCULPTOR
HENRY MOORE
ONCE SAID:

"If an artist tries consciously to do something to others, it is to stretch their eyes, their thoughts, and to do something they would not see or feel if the artist had not done it. To achieve this, he has to stretch his own horizons first."

When we began creating our yachts, this maxim became the backbone of every single thing we did.
