LADIES FIRST

Placing its technological expertise in the service of beauty, Zenith premieres the new Star Collection, including the 37-mm Star Moonphase watch in stainless steel. \$9,000, 866.675.2079, zenith-watches.com

ENERGY

The watch's ultra-thin, self-winding Zenith Elite movement beats at a frequency of 28,800 bph and offers 50-hour power reserve yet is less than 4 mm thick.

COLOR

Hours, minutes, small seconds and moon phase appear on the silver-toned dial. The blue Roman numerals match the deep blue shade of the sapphire cabochon set on the crown.

SHAPE

The basic geometry of the new collection is a circular dial opening inside a cushion-shaped case. Clusters of graduated brilliant-cut VVS diamonds set at each corner lend a touch of poetry.

NAVIGATION

An advanced navigation and guidance system includes four cameras (one of these with night vision capability), weather stations, radar, satellite compass and a suite of communications equipment.

PERFORMANCE

The 63-foot yacht combines enviable comfort with peerless performance. The solid mahogany hull and Rolls Royce water jets combine to deliver a stealthily smooth ride, even at speeds up to 40 knots.

PLEASURE CRUISE

Yachts by Art of Kinetic embody the maker's quest for the perfect balance between art and performance. The head-turning Hedonist hard top model is no exception. Price upon request, artofkinetic.com

COVERT

Sometimes discretion is the ultimate weapon. A black case, gray dial and matte finishes combine to produce the watch's low-contrast color scheme, which makes it the ideal camouflage watch.

COATED

The steel case is coated with a PVD finish and has an anti-reflective sapphire crystal. The watch is water resistant to 100 meters. Its gray rubber strap is interchangeable with a black fabric strap.

MILITARY COUP

Continuing Bell & Ross' heritage of designing instrument-inspired professional aviation watches, the BR 03-94 Commando is a smaller and stealthier 42-mm version of the original 46-mm BR 01. \$5,950, 888.307.7887, bellross.com
