HEDONIST CONVERTIBLE

## HEDONIST CONVERTIBLE

When we finally embark on a journey of conducting our ideas into action, creating another Art of Kinetik yacht means we dare not only to reimagine the whole concept of a luxury boat, we are also ready to rethink the artistic process that leads to its final look. We deeply respect the tradition of bringing only high quality art and share the opinion that outstanding pieces are not to be produced often, but rather crafted with great dedication and competence. Bearing this in mind, we approached the creation of Hedonist Convertible and that is what makes it an exceptional example of audacious devotion to the finest details. After years of hard work, we present it to you with pride.

## UNRIVALLED POWER

The finest craft demand the finest engines. To generate the smooth, exhilarating power to match Art of Kinetik's pulse-racing looks, we engaged diesel specialists Man.

## SHE IS BEAUTIFUL

As company name suggests, Hedonist Convertible just happens to be a yacht, but she is in fact a floating piece of art. She is beautiful and she is timeless.

## IMPECCABLE DETAIL

They say the devil is in detail. With Art of Kinetik, it is the delight. As with our pilot's chairs and steering wheel, we sought to create a unique experience at every turn. Our artists and designers worked closely with the engineers to produce dozens of tailored details such as the fuel tank caps, cleats, chock and retractable deck ladders.

The aim of art is to represent not the outward appearance of things, but their inward significance.

Aristotle

## TECHNICAL SPECIFICATIONS

### HEDONIST CONVERTABLE

Length Overall [m\ft]	20\65
Beam Overall [m\ft]	6\20
Draft [m\ft]	1.15\3.7
Displacement full load [kg\lb]	38000\83776
Accommodation	2+3
Max persons on board	12
Hull type Planning Hull	Monohedron Planning Hull
Certification - Notified body	RINA S.p.A
Navigation category	(2003/44/EC) CE category "B"
Engines	2 x 1920 hp MTU V12 2000 M94
Propulsion	2 x Rolls Royce 40A3 water jets
Fuel tank [l\gal]	2 x 2500\2 x 660
Fresh water tank [l\gal]	1000\265
Top speed [kn]	48
Cruising speed [kn]	38
Fuel consumption at top speed	750\198
Fuel consumption at cruising speed	520\138
Range at top speed [nm]	320
Range at cruising speed [nm]	370
Tender boat	AOK custom made PWC
Control and monitoring system	Böning Automationstechnologie

THE SCULPTOR  
HENRY MOORE  
ONCE SAID:

“If an artist tries consciously to do something to others, it is to stretch their eyes, their thoughts, and to do something they would not see or feel if the artist had not done it. To achieve this, he has to stretch his own horizons first.”

When we began creating our yachts, this maxim became the backbone of every single thing we did.
